The Future of Mobility: Emerging Trends, Disruptive Technologies & Investment Opportunities

Registration and networking from 10.30am, seated by 10.50am

RSVP **HERE**

Seats are available on a first come, first served basis.

Please be seated 10 minutes before lecture begins.

As parking is limited, guests are encouraged to take public transport.

(Source: CLC)

Join us for a sharing by The Center for Innovation in Transport (CENIT) on the emerging trends and disruptions that are transforming the mobility sector. Attendees can gain insight into the latest research on electric and autonomous vehicles, other emerging technologies, as well as investment opportunities in this space. This will be followed by a moderated Q&A session.

CENIT is a Barcelona-based research institute specialising in sustainable and innovative solutions for urban transportation and logistics, and is a constituent of the International Center for Numerical Methods in Engineering. As a public consortium between the Government of Catalonia and the Universitat Politècnica de Catalunya-Barcelona Tech, CENIT centralises expertise in transportation innovation to contribute research at both the city and local levels.
