Join us for a sharing on the 2050 Seoul Grand Plan, a visionary plan that boldly proposes and presents a step-by-step implementation plan for a comprehensive and future-oriented restructuring of urban infrastructure that has been constrained by institutional limitations and budgetary constraints. It includes a plan to transform the urban spatial structure, which has been partially improved since the 1970s. The plan aims to create a pedestrian-oriented daily life zone where people can work, live, and enjoy leisure activities on surface roads, and to connect disjointed spaces in a three-dimensional manner by integrating underground and deck railways. The plan also seeks to improve the quality of life and urban competitiveness by utilizing waterfront areas through a waterfront-centered land use. This will be followed by a moderated Q&A session.

Speaker
Dr Inhee Kim
Director, Planning &
Coordination Division,
Seoul Institute

Inhee Kim is the Director of Planning & Coordination Division at the Seoul Institute. After receiving his doctorate Urban and Regional Planning from the Technical University of Berlin in Germany in 2003, he has been working at the Seoul Institute since 2004. His main research areas include urban planning and development, residential renewal projects, metropolitan development plan, and participatory planning. Most recently, Kim developed a strategical plan for urban spatial development in the age of the New Normal, established the 2040 Seoul Master Plan, and the 2050 Seoul Grand Plan as a future vision plan. Kim has participated in numerous international workshops for government officials and delivered lectures at the Seoul Human Resource Development Center and the International School of Urban Sciences at the University of Seoul.

Moderator
Michael Koh
Executive Fellow,
Centre for Liveable Cities

Mr Michael Koh has 25 years of experience in the public service including 7 years as CEO of the National Heritage Board and 4 years concurrently as CEO of the National Art Gallery. He was also the former Director of Urban Planning & Design at the Urban Redevelopment Authority where he spearheaded the planning and urban design of the new mixed use Downtown at Marina Bay, revitalisation of Orchard Road as a shopping street and creation of an arts and entertainment district at Bras Basah Bugis.
